

How to read QR codes

Author: Veryant Support

Saved From: <http://support.veryant.com/support/phpkb/question.php?ID=344>

In KB article [#320](#), we showed how to generate a QR code in your COBOL program.

In this article, we'll show you how to call the attached program to generate or read a QR code.

Like the earlier article, you must first download 2 jar files, and put them in your CLASSPATH.

[Here's](#) the link to the ZXing libraries (Zebra Crossing).

imgHeight: Height in pixes of QR Code when generating (0 when read)
